

Jose Jathir Rubio Delgado

Texas, USA | American/Mexican | josejathir@gmail.com | +52 222 365 6533

Professional Summary

Mechatronics engineer with hands-on experience in industrial automation, robot programming, and CAD-driven digital twins. Strong background in scripting 3D model pipelines, PLC programming, and building autonomous robotics routines with ROS and LiDAR. Comfortable delivering repeatable, scriptable solutions, optimizing operator-robot workflows, and collaborating across R&D and manufacturing environments.

Experience

ZEISS — Oberkochen, Germany
R&D Department — Thesis

Sep 2024 – Feb 2025

- Automated CAD model processing for recurring tasks: component rotation, removal of unnecessary elements, and vertex-count optimization.
- Drove script-based control of 3D animation and rendering software to ensure robustness and reproducibility in model pipelines.
- Identified relevant CAD parameters and analyzed their impact on pose estimation and tracking performance.

ZEISS — Oberkochen, Germany
R&D Department — Internship

Apr 2024 – Sep 2024

- Implemented scripted workflows to modify and evaluate CAD models for robust tracking.
- Assessed effects of model changes to prepare robustness and accuracy tests for CAD model tracking.
- Tuned object model parameters to improve overall system performance.

Hochschule Zittau/Görlitz — Zittau, Germany
Robotics Programming (ROS)

Sep 2023 – Jun 2023

- Programmed a LIMO robot in Python/ROS to execute a complex routine: room mapping via LiDAR, autonomous navigation, and color recognition with onboard vision.

Skills

Programming: Python, C++, LabVIEW, MATLAB.

Robotics/Automation: ROS, LiDAR mapping, Robot programming (xArm), PLCs (Siemens TIA Portal).

CAD/Simulation: SolidWorks, Process Simulate, script-based CAD/animation control, CNC G-code.

Methods: Digital twin modeling, scripting for reproducible pipelines, prototyping, testing, documentation.

Languages: Spanish (Native), English (B2 – Intermediate), German (A2 – Basic).

Education

Hochschule Zittau/Görlitz — Zittau, Germany

Oct 2023 – Feb 2025

B.Eng. Automatisierung und Mechatronik (DHIK double-degree path) – one-year exchange culminating in a thesis.

Note: 1.22/1 — Equivalent to GPA 3.9/4.0

Tecnológico de Monterrey — Monterrey, Mexico

Aug 2020 – Jul 2025

B.Sc. in Mechatronics Engineering – Note: 96/100 — Equivalent to GPA 3.84/4.0

Awards & Memberships

Member, DHIK Dual Degree (2023–2024).

50% Scholarship for academic talent (2020–2025).

Certifications

E-Series Application, Universal Robots (2023).
E-Series Core Track, Universal Robots (2023).
E-Series Pro Track, Universal Robots (2023).
CSWA SolidWorks, XpertCAD (2023).
Learn C++ Programming (Basic–Advanced), Udemy (2023).
LabVIEW and Arduino Application Programming, Udemy (2022).

Additional Information

Software proficiency: Good knowledge – TIA Portal, SolidWorks, Process Simulate. Basic – C++, LabVIEW, In-Sight Explorer, Python, MATLAB.

Personal: Nationality – Mexican/American. Date of birth – 08.05.2002. Address – 3109 Lakewood Drive, Tyler, TX 75702-0000, USA.
